

Poi Programme Delivery over the year

Edition 5: end of Dec 2020

The Poi programme is about "Living well before dying". It is achieved by supporting Residential Care (RC) and General Practice (GP) in the Auckland region, to use evidence-based clinical tools to identify people sooner who are palliative. The Lead Clinician completes a plan (PPA - Palliative Pathway Activation) and receives free expert advice from the Poi Multi Disciplinary Team (PAS - Proactive Advisory Service). Poi also increases sector capability in palliative care by providing education and service development.

All numbers and percentages refer to PPA /PAS from July 20 to Dec 20 unless otherwise stated

POPULATION CHARACTERISTICS

25%
Identified as non NZ European

91%
Aged more than 65 years

PROPORTION OF PPAS AND THEIR PRIMARY SPICT* CLINICAL CONDITIONS

PHASES OF ILLNESS**

56%
Of people had the most clinically appropriate severity score, with an AKPS*** of 40 or 50

48%
Of ARC providers have activated a PPA for at least one resident

CLINICAL IMPACT DATA FROM JAN 20 TO SEP 20

92%
Of people in the Poi programme complete the approach in less than 2 weeks (from beginning the PPA to completing the PAS response)

17%
Died within 1 month of the PPA being completed

83%
Of all people with a PPA submitted who live longer than a month do not use ambulance or hospital services

3%
Of those in Poi die in hospital

17%
Of people with a PPA use the Emergency Department in any quarter

KEY / DEFINITIONS

*SPICT: The SPICT (Supportive and Palliative Care Indicator Tool) is an internationally validated tool for determining that a patient may be near their end of life.

**Phase of illness: One of three Palliative Care phases when assessed by the clinician (Dying / Deceased is removed for the purpose of this programme).

***AKPS Score (Australian Karnofsky Performance Status): A score from 0% to 100% measures the patient's overall performance status across the 3 dimensions: activity, work and self care.

****Service Development: Includes Stakeholder relationships and meetings, Link Nurse coaching and mentoring, Resource development, targeted Poi activity that is not directly related to a PPA, PAS or formal Education session.

*****GPSIs: General Practitioners with Special Interest

CLINICAL SERVICE DEVELOPMENT

95%
Of people do not require a referral to Specialist Palliative Care at the time of Poi Multi Disciplinary Team review

86%
Primary Health Organisations have at least one enrolled patient receiving a PPA

RANGE OF ACTIVITY SESSIONS DELIVERED

4400
Hours of activity per year is spent on Education, Service Development**** and PAS

521
Attendees per month on average at Poi education and service development sessions

STAFF TRAINED SO FAR
